PLANT FUTURES FEST RECAP

“ It was a day filled with inspiration, learning, and connection. I had the privilege of listening to insightful talks from entrepreneurs, artists, and advocates...[and] was able to try some incredible plant-based products. I had the opportunity to connect with amazing students from Berkeley, UCLA, Harvard, and exchange ideas on how we can work towards a more just and sustainable food system. I'm proud to be part of this community.

Julia Figueiredo Krausz, Brown University

“ It was an honor to share a space with like-minded individuals, all driven to translate our initiative into a global movement to transform our food systems for planetary sustainability and ultimately the survival of humanity.

Andréa Georgenes, Santa Clara University

“ In connecting with a multitude of like-minded individuals, each pioneering exceptionally in the plant-centric food sector, I feel empowered to make a profound impact and contribute to this ongoing, ground-breaking work. Today, I feel extremely grateful to be part of such a supportive, passionate plant-powered community.

Chandni Sacheti, UCLA
